### Urban Community Living

ALAIA is a serviced apartment with a strong emphasis on urban community living. This is brought to life by its Community Manager who curates group activities using ALAIA's facilities like the activity van and the Kebun. As for ALAIA's 18 shops, they will be curated and managed by the Developer to ensure the right mix of tenants complement the development's community lifestyle concept. 'Where Community Meets Exclusivity' is more than just a marketing tagline, it's a promise to build a vibrant and exciting place to live, work, play and grow as a community.

### The Building Architect

W Design Associates and WANGHC Architect are collectively known as WDA. The experienced and dynamic team at WDA believes the grand vision of ALAIA is in the fine details. Through meticulous design, WDA reimagines the way a space can be used and lived in.

### The Landscape Architect

SD2's landscape design is widely celebrated for both creative ingenuity and quality of work. Throughout ALAIA, SD2 has created multiple pockets of elegant and unique green spaces to relax and mingle as well as garden spaces to grow ingredients you need for your favourite dish or dessert.

### The Interior Designer

Karen Mok Design Consultancy (KMDC) creates experiential interiors that you feel, rather than simply see. KMDC uses textures, finishes and furnishings, many of them custom-made, to create public and private spaces with a refined, contemporary ambience. From the reception space to the lift lobby, attention to detail is paramount.

## 2. Premium Views

To the south, enjoy an unobstructed view of the KL City Skyline that is painted with a golden glow during sunsets. To the north, look out for the verdant slopes of the Titiwangsa Range and perhaps even Genting Highlands on a clear sunny day. The north/south orientation of ALAIA ensures no direct sunlight exposure for all units.

## 3. Unit Types

Various room and space configurations are available to meet the various needs of singles and families.

Three standard sizes: 1 bed + 1 study (635 - 689 sq. ft.), 2 bed + 1 study (807 - 861 sq. ft.) and 3 bed + 1 study (1,012 sq. ft.).

Corner units (Type A1, A1-m, A2, A4, B1, B3, B3-m, B4, C1 and C4-m) share only one wall with the adjacent unit. As such, they offer better privacy and sound insulation.

## 4. Podium Level Garden Units

**Type A and Type C units on Level 7 will each have a private lanai of its own**

Type A2, A3, A4 (1,012 sq. ft.) and C3 (689 sq. ft.) come with their own private lanai.

Type B4 and B5 (807 sq. ft.) as well as C4-m (635 sq. ft.) offer a picturesque view of the Sunken Garden.

Type C4 and C5 (635 sq. ft.) offer a view of the jogging track and easy access to a quick run before work starts.

## 5. Unit Design Features

### Ceiling Height

3.2m floor to floor height.

### Flooring

Laminated timber floors in the living and dining areas as well as all bedrooms make it warmer and cosier.

### Balcony

Every unit's regular sized balcony with clear glass railing offers an unobstructed view from the inside.

Dedicated aircond compressor area adjacent to the balcony is hidden behind a door.

### Study Room

Whether it's a walk-in wardrobe or a small office, this room can be easily converted into a space that suits the homeowner's need.
